Subject: microsoft settlement

To whom it may concern,

I think the DOJ settlement concerning the Microsoft settlement is fair. Keeping the company intact is in the interests of all. However oversight needs to be taken for a period of time collecting any instances of not following the points of the settlement. These should be documented and any serious non-compliance of this matter should cancel the settlement. Microsoft has been given a chance to work out this matter and should take advantage of the settlement and work fairly in the marketplace.
